

Validation Cover Sheet

Use this FedEx Integrator Validation cover sheet to request for Validation. Successful validation is required before moving projects to production.

Please fill in the information below and submit this cover sheet along with the required attachments for review by our central validation team.

We strive to provide feedback within **five business days** from receipt of your Validation submission.

Once your Integration Deliverables is fully approved, you'll receive an email confirmation and next steps to move your solutions into production.

Project information

Please fill out ALL sections of the form below.

Please note:

- This cover sheet is for **one solution only**. If you have more than one proposed solution, you will need to fill out and complete the Validation process for each solution.
- To avoid significant processing delays, it is essential that you provide this cover sheet with your **Integration Deliverables**.

FedEx Integrator ID	10189777

⁴ Americas: U.S., Canada, Latin America & Caribbean. See the Program Manual for a complete list of countries.

What to submit for Validation

Please send ALL your Integration Deliverables from the list below to validationmtp@fedex.com.

For 'Rate only' solutions, only those marked with "***" are required for validation.
For 'Track only' solutions, only those marked with "*" are required for validation.

- ☒ Completed Integrator Validation Cover Sheet (this document) ** and *
- ☒ Completed Product Information Worksheet ** and *
- ☒ Screenshots of your customer-facing solution displaying:
 - (1) FedEx services/Special handling;
 - (2) Disclaimer Statement; **
 - (3) EULA agreement; **
 - (4) end-customer registration flow; **
 - (5) FedEx rates, using the example of the rate test case in the test case baseline (applicable if your solution supports Rate API); **
 - (6) Tracking functionality screens, using the example of the FedEx track test case in the test case baseline (applicable if your solution supports Track API); *Please refer to the additional guidance sent to you via email.
Format: PDF (for all screenshots)
- ☐ End-customer registration transactions — Multi-Factor Authentication including invoice and PIN (SMS, call and email). Please refer to the additional guidance document sent to you via email. **
Format: JSON request/response files
- ☒ Scanned copies of actual printed labels for all label-generating test cases included in the test case baseline for the Territories you want your solution to be validated for. Please refer to the additional guidance sent to you via email
Format: PDF/PNG
- ☒ Ship transactions for three of the test cases (one for each label image type: PDF, PNG and ZPL)
Format: JSON request/response files
- ☒ Transactions and screenshots for all remaining non-Ship API test cases from the baseline (Rate, Track, Other API's, etc.), if supported by your solution. ** and *
Format: JSON request/response files

We'd advise you to submit your files in a .zip file to reduce the risk of your submission being blocked by the email provider.

Please note:

This Validation request only covers the Territories you indicated above. If you want to extend your program membership and enroll in additional Territories, you'll need to follow this process again for the territory(ies) you'd like to add. **Please keep in mind there might be differences in Validation processes for each Territory.**
